What were the Fund's costs for the last year?

(based on a hypothetical $10,000 investment)

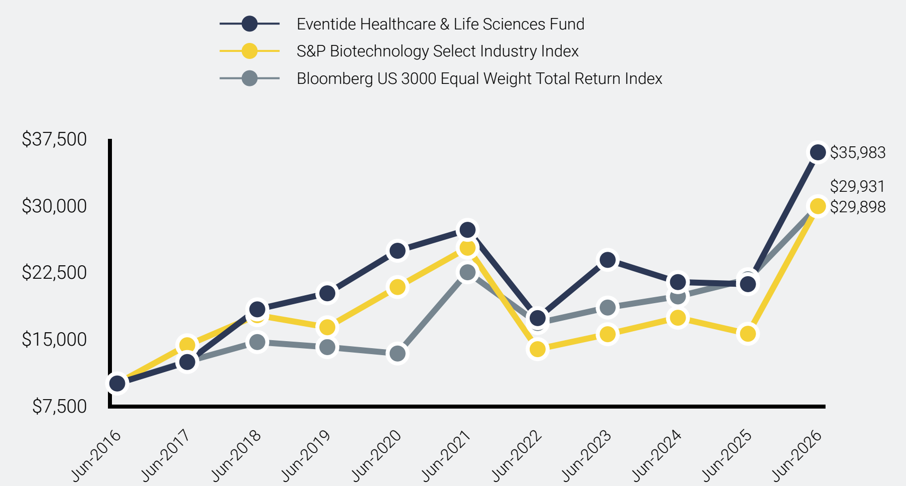
Class Name	Costs of a $10,000 investment	Costs paid as a percentage of a $10,000 investment
Class C	$309	2.29%

How did the Fund perform during the reporting period?

During the fiscal year, the Fund significantly outperformed the broader market. This was largely due to the outperformance of the biotech industry. After several years of struggling, biotech drew significant investor interest because of its high innovation, attractiveness as a source of M&A targets, favorable regulatory dynamics, and a differentiated correlation profile. The Fund has remained overweight the medtech and diagnostic subsectors, as well as in biotech companies in later development and commercial stages. We believe the Fund is strategically aligned to leverage the innovation in healthcare to address important unmet needs. Visit https://www.eventidefunds.com for more recent performance information.

How has the Fund performed over the last ten years?

Total Return Based on $10,000 Investment



The Fund's past performance is not a good predictor of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares. The Fund's performance information above is compared with a broad-based benchmark, Bloomberg US 3000 Equal Weight Total Return Index, which represents the overall domestic equity market. In addition, the strategy benchmark, S&P Biotechnology Select Industry Total Return Index, is included as the adviser believes it is more representative of the Fund's investment universe.
