What were the Fund's costs for the last year?

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Class I	\$139	1.16%

How did the Fund perform during the reporting period?

The Fund outperformed the benchmark during the fiscal year. This outperformance was due to both allocation and selection. Industrials exposure, favoring domestic manufacturing and global power, and Healthcare, with an overweight in biotech, generated the most sector outperformance. Financials and Communication Services, with significant underweights in the Fund relative to the benchmark, were the sectors that contributed the most to underperformance. The Fund's investment strategy remains anchored in the belief that companies with sustainable competitive advantages in attractive industries run by great management teams that focus on value creation for their stakeholders generate superior long-term risk-adjusted returns. How has the Fund performed over the last ten years?

The Fund's past performance is not a good predictor of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares. The Fund's performance information above is compared with a broad-based benchmark, Bloomberg US 3000 Equal Weight Total Return Index, which represents the overall domestic equity market. In addition, the strategy benchmark, Bloomberg US Mid Cap Growth Total Return Index, is included as the adviser believes it is more representative of the Fund's investment universe.
