How did the Fund perform during the reporting period?

The Fund underperformed the broad based benchmark for the year. The high-quality, dividend-focused style of the Fund did not keep up with the higher-beta constituents of the equal-weighted broad based benchmark during a very strong year for US equities from an absolute return perspective. An underweight to Healthcare and an overweight to Utilities was a drag on relative returns while an intentional underweight to Consumer Staples was a positive. From a stock selection standpoint, strength in Information Technology holdings was more than offset by weakness in Financials, Healthcare and Consumer Discretionary positions. Our focus remains on resilient growth, strong financials, idiosyncratic risk, and the overarching theme of human flourishing. Our experience underpins our confidence that these high-quality dividend growth companies will continue to serve their customers, stakeholders, and shareholders effectively.
